DESCRIPTION/OBJECTIVE

The Fund is an "index fund" that seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of a particular index (its "Underlying Index").

The Fund is a collective investment trust maintained and managed by BlackRock Institutional Trust Company, N.A. ("BTC").

The Fund shall be invested and reinvested primarily in a portfolio of international equity securities with the objective of approximating as closely as practicable the capitalization weighted total rates of return of the markets in certain countries for publicly traded equity securities. The benchmark for the Fund shall be the MSCI ACWI ex-U.S. Net Dividend Return IndexSM. The primary criterion for selection of investments shall be the relative market capitalization weight of the constituent markets in the MSCI ACWI ex-U.S. Net Dividend Return IndexSM. In addition to, or in lieu of investing in international equity securities, BTC may invest assets in depository receipts, registered investment companies, and other structured transactions utilizing foreign stocks, bonds, currencies and money market instruments, futures, options, forward contracts and swaps. BTC uses a "passive" or indexing approach to try to achieve the Fund's investment objective.

Unlike many funds, the Fund does not try to outperform the index it seeks to track and does not seek temporary defensive positions when markets decline or appear overvalued.

BTC uses a representative sampling indexing strategy to manage the Fund. "Representative sampling" is an indexing strategy that involves investing in a representative sample of securities that collectively has an investment profile similar to the Fund's Underlying Index. The securities selected are expected to have, in the aggregate, investment characteristics (based on factors such as market capitalization and industry weightings), fundamental characteristics (such as return variability and yield) and liquidity measures similar to those of the Underlying Index. The Fund may or may not hold all of the securities that are included in the Underlying Index.

When deemed appropriate by BTC and unless otherwise provided in the Fund's investment strategies, BTC may invest all or any portion of the Fund in one or more futures contracts, forward contracts or other similar assets for the purpose of acting as a temporary substitute for investment in securities.

The Fund may invest through one or a series of collective investment trusts maintained and managed by BTC. In the event of a conflict between this summary description of the Fund's investment objective and principal investment strategies and the Trust Document under which the Fund was established, the Trust Document will govern. For more information related to the Fund, please see the Fund's Trust Document, Profile and most recent audited financial statements.

There is no assurance the objectives will be met.

Investing in foreign securities presents certain unique risks not associated with domestic investments, such as currency fluctuation and political and economic changes. This may result in greater share price volatility.

Fund Fees Reflected in Performance. The Fund's returns are net of a 0.09% annual investment management fee. The Fund's performance reflects total annual operating expense ("TAOE") capped at 0.02% per year.

Additional Information for the Total Annual Operating Expense. The Total Annual Operating Expense ("TAOE") ratio noted above reflects administrative costs capped at two (2) basis points (0.02%) per year. There may be other fees and expenses not reflected in the TAOE ratio noted above that bear on the value of the investment. TAOE is based on estimated amounts for the current fiscal year.

Possibility of Contract Charges. Your retirement plan may have agreed to contract charges. If so, these would reduce the performance (and possibly the Morningstar ratings) shown above. Any contract charges are included in the expense ratio shown in your statement and in the performance shown in your statement. The Fund fees and contract charges compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with this Fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other plans investing in the Fund may have lower fees, but these are not available to your plan in order to compensate us for distribution and plan servicing.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Fund and other plan investment options. The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 1-888-71-ALOHA (1-888-712-5642) or go to www.prudential.com/islandsavings. It is possible to lose money investing in securities.
