CATEGORY

The Volatility measure is not displayed for investments with fewer than three years of history. The category average however, is shown above.

Morningstar® Style Box™ As of 06/30/2018

DESCRIPTION/OBJECTIVE

This Custom Plan Investment Option (the "Fund") invests wholly in the underlying collective investment trust fund, BlackRock Total Return Bond Fund F (the "C.I.T."). The C.I.T. generally seeks to realize a total return that exceeds the total rate of return of a particular benchmark, by investing and reinvesting in a portfolio of fixed income securities. The C.I.T. shall seek to realize a total return that exceeds that of the Bloomberg Barclays U.S. Aggregate Bond Index by investing and reinvesting substantially all of its assets in a portfolio of fixed income securities. The C.I.T. may engage in active and frequent trading of portfolio securities in seeking to achieve its investment objective.

The C.I.T. shall invest in fixed income securities issued or guaranteed by the U.S. government, its agencies or instrumentalities, foreign governments and supranational organizations, and U.S. and non-U.S. corporations, residential and commercial mortgagebacked securities and other asset-backed securities, other floating or variable rate obligations, municipal obligations, zero coupon debt securities, equity securities (including preferred stock), illiquid securities, convertible securities, corporate loans, and shares of investment companies and investment trusts (including private funds and exchange-traded funds) that may be managed, advised or sub-advised by BTC or an affiliate of BTC and from time to time, the C.I.T. may invest in restricted securities (e.g., Rule 144A securities). The C.I.T. may invest its assets in fixed income securities of issuers in both developed and emerging markets countries, and such securities may be U.S. dollar or non-U.S. dollar denominated. The C.I.T.'s fixed income investments may be investment grade or non-investment grade. The Fund may engage in short sales for hedging purposes or to enhance total return.

When consistent with its investment objective, the C.I.T. may purchase or sell options or futures, and enter into swaps (including, but not limited to, those related to interest rates, inflation, foreign currency and total return) and other such transactions (collectively, "derivatives"), some of which may give rise to a form of leverage. The C.I.T. typically uses derivatives as a substitute for taking a position in the underlying asset and/or as part of a strategy designed to reduce exposure to risk, but may also use derivatives to enhance returns. The C.I.T. may also seek to obtain market exposure to the securities in which it may invest by entering into a series of purchase and sale contracts or by using other investment techniques (such as reverse repurchase agreements or dollar rolls). The C.I.T. may purchase or sell interest rate futures for hedging and duration management purposes. The C.I.T. may invest through one or a series of collective investment trusts maintained and managed by BTC.

In the event of a conflict between this summary description of the C.I.T.'s investment objective and principal investment strategies and the Trust Document under which the C.I.T. was established, the Trust Document will govern. For more information related to the C.I.T., please see the C.I.T.'s Trust Document, Profile and most recent audited financial statements. There is no assurance the objectives will be met.

Fixed income investment (bond) funds are subject to interest rate risk; their value will decline as interest rates rise. Fund shares are not guaranteed by the U.S. Government.

Mandate Benchmark	-0.16	-1.62	---	---	---	---	---

Fund Fees Reflected in Performance. The Fund's returns are net of a 0.18 % annual investment management fee. The Fund's performance reflects total annual operating expense ("TAOE") capped at 0.01% per year.

Additional Information for Total Annual Operating Expense. The Total Annual Operating Expense ratio noted above ("TAOE") reflects administrative costs that are capped at one (1) basis point (0.01%) per year. The TAOE may also, if applicable, reflect certain third party acquired fund fees and expenses. There may be other fees and expenses, including management fees, not reflected in the TAOE that bear on the value of the investment.

Fund Structure. Your retirement plan makes available certain plan investments structured as "Fund of funds" (investments that invest in one or more underlying funds). These investments are neither mutual funds nor separate accounts offered by Prudential Retirement Insurance and Annuity Company ("PRIAC"). Rather, PRIAC acts solely as a record keeper in providing administrative and valuation services in connection with these plan investments. Management of these plan investments is the sole responsibility of your plan sponsor and/or a third party whom the plan sponsor has hired to provide investment management services.

Possibility of Contract Charges. Your retirement plan may have agreed to contract charges. If so, these would reduce the performance (and possibly the Morningstar ratings) shown above. Any contract charges are included in the expense ratio shown in your statement and in the performance shown in your statement. The Fund fees and contract charges compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with this Fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other plans investing in the Fund may have lower fees, but these are not available to your plan in order to compensate us for distribution and plan servicing.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Fund and other plan investment options. The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 1-888-71-ALOHA (1-888-712-5642) or go to www.prudential.com/islandsavings. It is possible to lose money investing in securities.

Miscellaneous. Frequent exchanging of investment options may harm long-term investors. Your plan and/or the Fund may have policies to detect and deter potentially abusive exchanges. The policies may require us to modify or terminate investment exchange privileges. Benchmarks are unmanaged and cannot be invested in directly. See User Guide for benchmark definitions and refer to the section entitled "Separate Account or Custom Plan Investment Options" for a description of PRIAC's role related to the type of fund described in this Fact Sheet. Information contained in this fact sheet has been provided by BlackRock Institutional Trust Company, N.A.

Prudential Retirement's Role. This fund is not part of Prudential Retirement's Manager of Managers Program and Prudential Retirement does not assume any responsibility for the plan's decision to invest in the funds, to monitor their performance or to provide information regarding the funds. Each of those is the sole responsibility of the plan. To the extent Prudential Retirement provides such information, it makes no warranty as to the accuracy of such information and makes no undertaking to continue to provide such information unless Prudential Retirement agrees to continue to provide such information in writing.

For additional information about the investment options available through your plan, please go to www.prudential.com/islandsavings or call toll-free 1-888-71-ALOHA (1-888-712-5642).
