DESCRIPTION/OBJECTIVE

The investment seeks long-term growth of capital. The fund invests at least 80% of its assets (net assets plus any borrowings for investment purposes) in large capitalization companies, which are companies having a market capitalization in excess of \$4 billion at the time of purchase. The Subadvisor invests substantially all of the fund's investable assets in domestic securities. However, the fund is permitted to invest up to 20% of its net assets in foreign securities, which are generally securities issued by companies organized outside the U.S. and traded primarily in markets outside the U.S. There is no assurance the objectives will be met.
