Fund Fees Reflected in Performance. Balanced Fund expenses include 0.46% management and other expense fees and the IncomeFlex Target® Guarantee fee of 0.90%. Such Fund operating expenses may reflect the benefit of a commission recapture program. Actual performance shown reflects the imposition of the foregoing expenses and the benefit of any fee waivers and commission recaptures.

We apply an IncomeFlex guarantee fee of 0.90%. Participants who elect the optional Spousal Benefit will incur no additional cost, but will receive a reduced withdrawal benefit. PRIAC reserves the right to increase this fee up to a maximum of 1.50%, but has no current intention to do so. Any increase would apply only to new deposits into the Funds and step-up transactions.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Fund and other plan investment options. The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 866-653-2771. Actual performance may be affected by the manager not being able to invest directly in a country prior to satisfaction of that country's legal requirements. It is possible to lose money investing in securities. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Fund Structure. Your retirement plan makes available certain plan investments structured as "fund of funds" (investments that invest in one or more underlying funds). These investments are neither mutual funds nor separate accounts offered by Prudential Retirement Insurance and Annuity Company ("PRIAC"). Rather, PRIAC acts solely as a record keeper in providing administrative and valuation services in connection with these plan investments. Management of these plan investments is the sole responsibility of your plan sponsor and/or a third party whom the plan sponsor has hired to provide investment management services.

For federal tax purposes, PRIAC/PICA owns the assets and the income in the separate account and may derive certain corporate income tax benefits associated with the investment of separate

account assets. Under current tax law, such benefits may include but not be limited to foreign tax credits and the corporate dividends received deduction, which in either case PRIAC/PICA is the only taxpayer eligible to claim such tax benefits.

Miscellaneous. Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions and refer to the section entitled "Description of PRIAC Separate Accounts or Custom Plan Investment Options" for a description of PRIAC's role related to the type of fund described in this Fact Sheet. The index shown, if applicable, in the Characteristics chart refers to the Primary Index.
