Key Facts		Description / Objective
Investment Advisor	Pacific Investment Management Company, LLC	The investment seeks maximum real return, consistent with prudent investment management. The fund seeks to achieve its investment objective by investing under normal circumstances in commodity-linked derivative instruments backed by a portfolio of inflation-indexed securities and other Fixed Income Instruments. "Fixed Income Instruments" include bonds, debt securities and other similar instruments issued by various U.S. and non-U.S. public- or private-sector entities. These alternative investments may be speculative and more volatile than investments in more traditional equity and debt securities.</i>
