

This material has been prepared by a third party. Prudential Retirement Insurance and Annuity Company (“Prudential Retirement”), also a Prudential financial affiliate, serves as a recordkeeper for your plan but does not make any representations or warrant as to the accuracy or completeness of the information contained in the fact sheet and is not liable for any material contained therein. This information is provided for informational purposes only and should not be considered a recommendation to buy or sell any security.

Prudential Retirement is forwarding information from the Fund’s investment manager to assist investors in making investment decisions regarding the Fund. Investors must determine whether any other information is necessary in making those decisions. The investor is solely responsible for obtaining any other information required by the investor, which may not be available from PRIAC. The investor is solely responsible for the decision to invest or continue to invest in the Fund. PRIAC assumes no responsibility for any investor’s decision to invest or continue to invest in the Fund. This Fund is not part of the Manager-of-Managers program and therefore PRIAC does not assume any responsibility with respect to the selection, monitoring, or replacement of the investment manager. Selection, monitoring, or termination of the Fund on a retirement plan’s investment line-up is the sole responsibility of each retirement plan’s fiduciary.

Certain fees that Prudential Retirement and its affiliates may receive in connection with plan investments in this fund(s), share class, include:

Finders Fee	No	12b-1 Fee	0.00%
Sub-accounting fee %	0.00%	Sub-accounting fee (\$ per participant)	0.00%
Other Service fee %	0.00%	Other Service fee (\$ per participant)	0.00%

Fees, if applicable to this Fund, compensate Prudential Retirement for selling the Fund’s shares and servicing your retirement plan. The Fund’s expense ratio includes these fees. Other investment options may generate more or less revenue than the fees associated with this Fund. If the aggregate revenue from your plan exceeds Prudential Retirement’s associated costs, Prudential Retirement earns a profit. Otherwise, Prudential Retirement incurs a loss. Other share classes of this fund may have a lower expense ratio, but your plan’s investment options do not include such shares to compensate Prudential Retirement for distribution and plan servicing.

Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Please refer to the prospectus, or other offering document if available, for the investment, for information on these potential restrictions and any applicable redemption fees. Otherwise, please contact your Prudential Representative.

Any performance data quoted represents past performance, and past performance does not guarantee future results. In general, the investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted.

## DESCRIPTION

The North Carolina Stable Value Fund ("Fund") is a diversified stable value portfolio managed by Galliard Capital Management. The Fund is primarily comprised of Security Backed Investment Contracts issued by insurance companies. Security Backed Investment Contracts include two components: 1) investment contracts issued by a financial institution and 2) underlying portfolios of fixed income securities (i.e. bonds) whose market prices fluctuate. The investment contract is the vehicle which allows participants to transact at book value (principal plus accrued interest) without reference to the price fluctuations of the underlying securities. The contract issuers for the Fund include Metropolitan Life, American General, Transamerica, Nationwide, and Prudential. The bond portfolio underlying the investment contracts is currently managed by Galliard and sub-advised by TCW, Payden & Rygel, Dodge & Cox, Jennison, and PGIM. Your investment in the Fund earns the blended returns of these components.

## INVESTMENT OBJECTIVE

The North Carolina Stable Value Fund is designed to be a conservative investment option that seeks to provide safety of principal and a stable credited rate of interest, while generating competitive returns over time compared to other comparable investments. There is no assurance that the objective of the Fund will be met.

## INVESTOR PROFILE

- Investors seeking income and safety of principal
- Investors seeking a fixed-income investment to balance risk in a diversified portfolio

## INTEREST CREDITING METHOD

The Fund credits interest daily on a portfolio basis. That means that all money deposited in the Fund, regardless of when it was deposited, receives the same interest rate. The crediting rate on the contracts are reset on a quarterly basis.

## FEATURES

- Designed for preservation of principal, plus a stable credited rate of interest
- All contract issuers and securities utilized in the Fund are rated investment grade by one of the Nationally Recognized Statistical Rating Organizations (NRSRO) at time of purchase
- Benefit responsive. The Fund is managed with the goal of maintaining daily liquidity for participant benefits and transactional needs
- Participants can readily make contributions, transfers, and withdrawals
- Well-diversified portfolio of high-quality, fixed-income securities (i.e. bonds)

## Performance<sup>3</sup>

As of 12/31/20

Periods Ending 12/31/20	ANNUALIZED RETURNS						
	4Q'20	YTD	1 Year	3 Year	5 Year	10 Year	Since Inception
North Carolina Stable Value Fund	0.57%	2.41%	2.41%	2.40%	2.23%	2.30%	2.31%

1 The net expense ratio of 0.30% is broken down as follows: investment management fees of 0.114%; investment contract fees of 0.157%; acquired fund fees of 0.002%; administrative fee of 0.025%; and estimated custodial expenses of 0.002%. The actual net expense ratio may vary due to rounding and actual versus estimated custodial expenses.

2 Blended yield is net of the 0.27% Net Expense Ratio for this investment. NC's administrative fee of 0.025% which is included in the Net Expense Ratio, was waived for 2019 and 2020.

3 Returns for periods less than one year are not annualized. Performance is net of all fees. NC's administrative fee was waived for 2019 and 2020. Galliard assumed management of the North Carolina Stable Value Fund on 12/1/10. Performance for periods referenced prior to this date include historical performance of another investment advisor. Each plan charges a separate \$31 annual recordkeeping and communications fee per account that is not reflected in performance.

4 Duration is a time measure (in years) of a fixed income security's interest rate sensitivity. The longer the duration, the larger the change in value will be, for a given change in interest rate. Unlike maturity, which only shows how much time will elapse until final payment of principal, duration can be a more useful type of maturity measure because it incorporates the timing and size of all cash flows.

**THE FUND AND THE UNDERLYING COLLECTIVE FUNDS ARE NOT INSURED BY THE FDIC, FEDERAL RESERVE BANK, NOR GUARANTEED BY WELLS FARGO OR ANY AFFILIATE, INCLUDING GALLIARD CAPITAL MANAGEMENT.** Returns also include all income, realized and unrealized capital gains and losses, and all transactional and contract execution costs. Returns may have been impacted by the effect of compounding and have been rounded to the nearest basis point. **Past performance is not an indication of how the investment will perform in the future.** Individual participant returns may differ due to level and timing of activity in your account. For further information, please contact your plan administrator.

The Fund's investment contracts are designed to allow for participant transactions at book value. A principal risk of the Fund is investment contract risk. This includes the risk that the issuer will default on its obligation under the contract or that another event of default may occur under the contract rendering it invalid; that the contract will lapse before a replacement contract with favorable terms can be secured; or that the occurrence of certain other events including employer-initiated events, could cause the contract to lose its book value withdrawal features. These risks may result in a loss in value to a contract holder. Other primary risks include default risk, which is the possibility that instruments the Fund holds will not meet scheduled interest and/or principal payments; interest rate risk, which includes the risk of reinvesting cash flows at lower interest rates; and liquidity risk, which includes the effect of very large unexpected withdrawals on the Fund's total value. The occurrence of any of these events could cause the Fund to lose value.

Frequent exchanging between plan investment options may harm long-term investors. Your plan or the plan's investment funds may have provisions to deter exchanges that may be abusive. These policies may require us to modify, restrict or suspend purchase or exchange privileges and/or impose redemption fees. This fact sheet was produced by Galliard Capital Management.

This material has been provided by a third party. Prudential Retirement does not make any representation as to the accuracy or completeness of the information contained herein. This information is provided for informational purposes only and should not be considered a recommendation to buy or sell any security.

Prudential Retirement provides recordkeeping and communications services for the NC 401(k) and NC 457 Plans and the NC 403(b) Program. Prudential Insurance Company of America (PICA), an affiliate of Prudential Retirement, is one of the insurance wrap contract issuers for the NC Stable Fund. PGIM, Inc., another affiliate of Prudential Retirement, manages part of the account to which PICA's wrap contract applies.
