

This material has been prepared by a third party. Prudential Retirement Insurance and Annuity Company (“Prudential Retirement”), also a Prudential financial affiliate, serves as a recordkeeper for your plan but does not make any representations or warrant as to the accuracy or completeness of the information contained in the fact sheet and is not liable for any material contained therein. This information is provided for informational purposes only and should not be considered a recommendation to buy or sell any security.

Prudential Retirement is forwarding information from the Fund’s investment manager to assist investors in making investment decisions regarding the Fund. Investors must determine whether any other information is necessary in making those decisions. The investor is solely responsible for obtaining any other information required by the investor, which may not be available from PRIAC. The investor is solely responsible for the decision to invest or continue to invest in the Fund. PRIAC assumes no responsibility for any investor’s decision to invest or continue to invest in the Fund. This Fund is not part of the Manager-of-Managers program and therefore PRIAC does not assume any responsibility with respect to the selection, monitoring, or replacement of the investment manager. Selection, monitoring, or termination of the Fund on a retirement plan’s investment line-up is the sole responsibility of each retirement plan’s fiduciary.

Certain fees that Prudential Retirement and its affiliates may receive in connection with plan investments in this fund(s), share class, include:

Finders Fee	No	12b-1 Fee	0.00%
Sub-accounting fee %	0.00%	Sub-accounting fee (\$ per participant)	0.00%
Other Service fee %	0.00%	Other Service fee (\$ per participant)	0.00%

Fees, if applicable to this Fund, compensate Prudential Retirement for selling the Fund’s shares and servicing your retirement plan. The Fund’s expense ratio includes these fees. Other investment options may generate more or less revenue than the fees associated with this Fund. If the aggregate revenue from your plan exceeds Prudential Retirement’s associated costs, Prudential Retirement earns a profit. Otherwise, Prudential Retirement incurs a loss. Other share classes of this fund may have a lower expense ratio, but your plan’s investment options do not include such shares to compensate Prudential Retirement for distribution and plan servicing.

Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Please refer to the prospectus, or other offering document if available, for the investment, for information on these potential restrictions and any applicable redemption fees. Otherwise, please contact your Prudential Representative.

Any performance data quoted represents past performance, and past performance does not guarantee future results. In general, the investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted.

Teamster-UPS National 401(k) Tax Deferred Savings Plan International Index Fund

December 31, 2020

What is the Fund's Goal?

The Fund seeks to track the performance of the Morgan Stanley Capital International Europe Australasia Far East Index (MSCI EAFE® Index).

What is the Fund's Investment Strategy?

To pursue its goal, the assets of the Fund may be invested in foreign securities, and a combination of other investments, that together are designed to track the performance of the MSCI EAFE Index. Equity exposure may be obtained through purchases of foreign or domestic stocks, Global Depository Receipts or American Depository Receipts. The Fund may use over-the-counter foreign currency forward contracts to maintain the approximate currency exposure of the MSCI EAFE Index. Derivatives (i.e., financial futures, currency contracts) may be used to gain exposure, to provide liquidity for cash flows, to equitize dividend accruals, or for other purposes that facilitate meeting the Fund's objective.

Certain Risks

The performance of the Fund depends on the value of its holdings. Stock values may vary from day to day in response to individual companies and general market and economic conditions. In the short term, stock values may be volatile, but over the long term, they have the potential for higher returns than bond or cash investments. The value of foreign stock holdings are further impacted by currency exchange rates, and different types of political, market and economic risks. Also, foreign countries have different auditing, accounting corporate governance and other financial and legal reporting standards, and foreign markets may have greater volatility, decreased liquidity or less efficient trading and reporting. These risks are generally more pronounced in emerging markets. The Fund is structured to minimize risk through diversification. Please see the plan's Summary Plan Description, Investment Brochure, or other similar disclosure document for a complete list of the Principal Risks for investing in the Fund.

Total Returns

as of 12/31/20

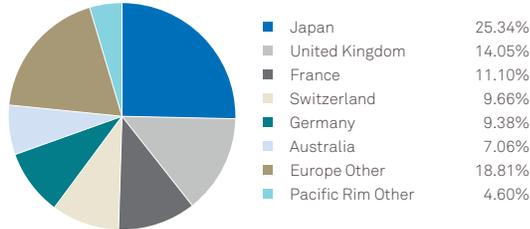

Fund (inception date)	3 mo	YTD	12 mo	3 yr Annualized	5 yr Annualized	10 yr Annualized	Since Inception Annualized
International Index Fund (12/31/08)	16.04%	8.51%	8.51%	4.75%	7.94%	5.78%	7.96%
MSCI-EAFE® Index ³	16.05%	7.82%	7.82%	4.28%	7.45%	5.51%	7.67%

Past results are not necessarily indicative of future performance and are no guarantee that losses will not occur in the future. Future returns are not guaranteed and a loss of principal may occur. Performance results for periods of one year or less are not annualized. Effective January 1, 2009, The Bank of New York Mellon began managing the underlying investments of the Fund. Therefore, past performance for periods prior to this date is not available on this fact sheet.

This fact sheet is intended to provide participants with some helpful information to decide whether to choose the International Index Fund as an investment option for their retirement needs. The Fund has chosen an Index against which its performance and composition are compared.

See footnotes on next page.

Country/Region Allocation¹

Top Ten Securities¹

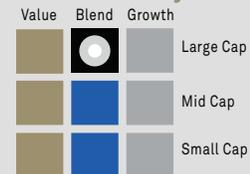

Nestle SA	2.15%
Roche Holding AG	1.55%

AIA Group Ltd	0.94%
SAP SE	0.87%
AstraZeneca PLC	0.83%
Sony Corporate	0.79%

The holdings listed should not be considered recommendations to buy or sell a security.

Is the Fund Appropriate for Me?

This Fund was designed primarily for 401(k) plans. In building a retirement portfolio, it's important to include a mix of equity (stock) and fixed income (bond) funds. Stock funds help build the value of your portfolio over the long term, while bond funds provide income and stability of principal. As a stock fund, this Fund may be appropriate if you have a medium to longer investment time frame and are willing to ride out stock market fluctuations in the short term in exchange for the potential for high long-term returns.

Investment Style Classification¹

Fees⁴

Investment Fee	3.20 bps
Custody Fee	0.28 bps
Redemption Fee*	2.00%

Fund Characteristics^{1,2}

Dividend Yield	2.45%
Beta	1.00

Wgt Avg Market Cap	\$71.2 billion

How Do I Buy or Sell the Fund?

To buy or sell the Fund, go to www.teamsterups401Kplan.com or call 1-800-537-0189.

*The plan will assess a 2.00% short-term trading fee for money transferred out of the Fund and/or paid out as a distribution within 30 days of investment in the Fund. The 2.00% redemption fee is assessed against the gross proceeds from the sales transaction. This short-term trading fee will only apply to a sale of the Fund due to a transfer request and/or a distribution.

Teamster-UPS National 401(k) Tax Deferred Savings Plan International Index Fund

The performance information herein has been presented by The Bank of New York Mellon ("BNY Mellon") at the request of Plan trustees. Please note that this presentation alone does not comply with all of the disclosure requirements for an ERISA "section 404(c) plan," as described in the Department of Labor regulations under section 404(c), nor does it contain all of the disclosure required by Rule 404a-5. Plan sponsors intending to comply with those regulations will need to provide the plan participants with additional information, which can be found in the plan's summary plan description and website (www.teamsterups401kplan.com). The information provided in this presentation does not constitute individual investment advice for a participant or investor, is only informational in nature and should not be used by a participant or investor as a primary basis for making an investment decision.

A Fund's total return presented in this Fact Sheet reflects net performance (after fees and expenses) of the particular Fund units but does not reflect any fees that may be borne externally by Fund participants. Such external fees would reduce the performance quoted. The Fund's performance is compared to an index described below. An index does not incur management fees, costs, and expenses, and cannot be invested in directly. An index is an unmanaged portfolio of specified securities. A Fund's portfolio may differ significantly from the securities in the index.

¹Except as otherwise noted, Fund data is as of 12/31/2020, and is subject to change at any time. The Fund invests in a bank collective investment trust managed by BNY Mellon that has the same investment goals and investment strategies as the Fund. The fund characteristics and portfolio composition table and pie chart shown reflect the investment composition of the collective investment trust, not that of the Fund. The information provided in this presentation should not be considered a recommendation to purchase or sell a particular security. Any specific securities identified do not represent all of the securities purchased, sold or recommended for advisory clients, and may be only a small percentage of the entire portfolio and may not remain in the portfolio at the time you receive this report. You should not assume that investment decisions we make in the future will be profitable or will equal the investment performance of the past.

²Weighted average market cap is calculated by raising the market capitalization of each stock to a power equal to that stock's stake in the portfolio. The resulting numbers are multiplied together to produce the geometric mean of the market caps of the stocks in the portfolio. Beta is a historical measurement of a fund's sensitivity to market movements, in relation to its benchmark index. The market's beta is 1.00 by definition. Dividend Yield is a financial ratio that shows how much a company pays out in dividends each year relative to its share price.

³Source: Morningstar. The MSCI EAFE Index is a free float-adjusted market capitalization weighted index that is designed to measure equity performance in developed markets excluding the United States and Canada. The performance shown for the Index reflects reinvestment of dividends and, where applicable, capital gain distributions, and is not subject to fees and expenses to which the Fund is subject. Investors cannot invest directly in any index. MSCI, Barra, MSCI Barra, EAFE, Aegis, Cosmos, BarraOne, and all other MSCI and Barra product names are the trademarks, registered trademarks, or service marks of MSCI, Barra or their affiliates, in the United States and other jurisdictions and have been licensed for use by BNY Mellon (together with its affiliates and subsidiaries). MSCI, Barra and their affiliates are not affiliated with the Fund, do not sponsor, endorse, sell or promote the investment strategies or products mentioned in this fact sheet, and make no representation regarding the advisability of investing in the products or strategies described.

⁴BNY Mellon charges Investment Fees and Custody Fees to the Plan and its participants in connection with the fund's investment in the underlying collective investment trust(s) managed by BNY Mellon. Custody Fees are calculated by BNY Mellon and prorated across all investment funds. Custody Fees may be fixed or variable, and can vary by changes in fund assets and activity. Those fees may be expressed in basis point charges or dollar amount charges. Total fees and expenses are translated into basis points for each fund. The fixed costs amount to an annualized rate of 0.25 basis point, while the variable costs are calculated and charged in arrears and are estimated to be an additional annualized amount of 0.03 - 0.05 basis points. Along with Investment Fees, the Custody Fees are accrued and assessed daily against each fund's unit value, and are reflected in the total return performance information presented herein. Similarly, outside audit fees, NSCC fees and third-party facilitation, vendor, and fair value pricing expenses may be charged to the fund and would be reflected in the fund's total performance information. There may be additional Plan fees and expenses that participants will bear that are not reflected in fund performance.

The Fund is bank collective investment trust fund for which BNY Mellon is the manager and trustee, and for which Mellon Investments Corporation ("Mellon") manages the assets of the collective investment fund in their capacity as dual officers of BNY Mellon. BNY Mellon is a wholly owned subsidiary of The Bank of New York Mellon Corporation. As a bank-maintained collective investment fund, the Fund and its units are not registered under federal and state securities laws in reliance upon applicable exemptions. Because the Fund is not a mutual fund, it is governed by different regulations, restrictions and disclosure requirements. For example, the Fund is subject to banking and tax regulations which, among other things, limit participation to certain eligible qualified retirement plans (stock bonus, retirement, pension and profit sharing accounts) and government plans where BNY Mellon or an affiliate is a trustee, investment manager, custodian or directed agent.

As is the case with mutual funds, the Fund is not a deposit of, and are not insured or guaranteed by, any bank, financial institution, the FDIC or any other government agency, and participants may lose money. Also, a Fund's unit principal value and investment return will fluctuate, so that when a unit is redeemed, it may be worth more or less than the original investment.
