Other/Risks
 Generally, Participants may not directly transfer amounts from the Prudential Stable Value Fund to a competing fund. A transfer out of this investment must be directed to and remain in a non-competing fund for a period of 90 days before it can be invested in a competing fund. Competing funds are generally short-term fixed income investments, money market funds or stable value investments that may be available in the Plan. However, the transfer provisions and competing fund definitions may differ depending on the provisions of the group annuity contract. Participants should also know that certain Employer Initiated Events, as defined in your Plan's group annuity contract, that cause large movements of money to leave the group annuity contract as a whole may trigger contract provisions that will result in individual participant account value reductions. Additionally, when your Plan's group annuity contract terminates, payments from the Prudential Stable Value Fund may be delayed or reduced depending on the terms of the group annuity contract (which may result in a delay in payments by the Plan or a reduction in participant account value). The Customer Service Center can answer questions regarding these provisions applicable to a Plan.
