Prudential Retirement Insurance and Annuity Company (“Prudential Retirement”), also a Prudential financial affiliate, serves as a recordkeeper for your plan but does not make any representations or warrant as to the accuracy or completeness of the information contained in the fact sheet and is not liable for any material contained therein. This information is provided for informational purposes only and should not be considered a recommendation to buy or sell any security.

Prudential Retirement is forwarding information from the Fund’s investment manager to assist investors in making investment decisions regarding the Fund. Investors must determine whether any other information is necessary in making those decisions. The investor is solely responsible for obtaining any other information required by the investor, which may not be available from PRIAC. The investor is solely responsible for the decision to invest or continue to invest in the Fund. PRIAC assumes no responsibility for any investor’s decision to invest or continue to invest in the Fund. This Fund is not part of the Manager-of-Managers program and therefore PRIAC does not assume any responsibility with respect to the selection, monitoring, or replacement of the investment manager. Selection, monitoring, or termination of the Fund on a retirement plan’s investment line-up is the sole responsibility of each retirement plan’s fiduciary.

Certain fees that Prudential Retirement and its affiliates may receive in connection with plan investments in this fund(s), share class, include:

Finders Fee	N	12b-1 Fee	0.00%
Sub-accounting fee %	0.00%	Sub-accounting fee (\$ per participant)	0.00%
Other Service fee %	0.00%	Other Service fee (\$ per participant)	0.00%

Fees, if applicable to this Fund, compensate Prudential Retirement for selling the Fund’s shares and servicing your retirement plan. The Fund’s expense ratio includes these fees. Other investment options may generate more or less revenue than the fees associated with this Fund. If the aggregate revenue from your plan exceeds Prudential Retirement’s associated costs, Prudential Retirement earns a profit. Otherwise, Prudential Retirement incurs a loss. Other share classes of this fund may have a lower expense ratio, but your plan’s investment options do not include such shares to compensate Prudential Retirement for distribution and plan servicing.

Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Please refer to the prospectus, or other offering document if available, for the investment, for information on these potential restrictions and any applicable redemption fees. Otherwise, please contact your Prudential Representative.

Any performance data quoted represents past performance, and past performance does not guarantee future results. In general, the investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted.

State Street Real Asset Non-Lending Series Fund Class C ("Class C") represents units of ownership in the State Street Real Asset Non-Lending Series Fund (the "Fund").

The Fund seeks to offer broad, cost effective exposure to commodities, global natural resource equities, global infrastructure equities, U.S. commercial real estate securities, and U.S inflation linked bonds.

Investment Objective

The Fund seeks to provide a total investment return to approximate as closely as possible, before expenses, the performance of a custom index (the "Index") over the long term. The Fund seeks to approximate its custom benchmark, which is comprised of 10% Dow Jones U.S. Select REIT IndexSM, 25% Bloomberg Roll Select Commodity IndexSM, 25% S&P[®] Global LargeMidCap Commodity and Resources Index, 20% Bloomberg Barclays US Government Inflation-Linked 1-10 Year Bond Index and 20% S&P Global Infrastructure Index.

Investment Strategy

The Fund seeks to offer diversification and a disciplined rebalancing process by investing approximately 25% of the Fund's assets in commodities, 25% in global natural resource stocks, 20% in global infrastructure stocks, 10% in U.S. REITs, and 20% in U.S. Intermediate TIPS. The Fund seeks to approximate, as closely as practicable, before expenses, the performance of its custom Index over the long term, which is designed to seek to provide a long-term targeted return in excess of the U.S. CPI measure of inflation, while targeting a level of risk, as measured by standard deviation, similar to longer-dated U.S. TIPS, over the long term. Both of these metrics are based on SSGA's expectations for future returns, risk and correlations across the included asset classes and cannot be guaranteed.

The Fund's asset class exposures are rebalanced on a quarterly basis. Asset class differences in weightings and increased portfolio risk relative to the Index may occur as a result of intra-quarter market movements. The Fund may allocate cash flows or partially rebalance the Fund in efforts to reduce differences in weightings compared with the Index, or to maintain an active risk level that is consistent with the Fund's objective.

SSGA may implement the Fund's asset allocations through investments in investment pools (which may, but will not necessarily, be registered under the U.S. Investment Company Act of 1940, as amended) managed or sponsored by SSGA or an affiliate. Because of the unit issuance processes employed by the various underlying investment pools, allocations by the Fund to certain pools on a given trading day may be invested in such pools at the next trading day's net asset value per unit. This will result in the portion of the Fund's assets being invested in such investment pools being held in cash for the trading day and may result in increased tracking error. This could adversely impact the return to any investor. The Fund, or any of the investment pools in which it invests, may hold a portion of its assets in cash and cash instruments, including short-term investment vehicles managed by SSGA or an affiliate. SSGA will not normally enter into foreign currency exchange transactions for the Fund. The Fund's return may not match the return of its Index.

The Dow Jones U.S. Select REIT IndexSM

The Dow Jones U.S. Select REIT Index is a market capitalization-weighted index comprising publicly traded real estate investment trusts (REITs). No special purpose or healthcare REITs are included. The Index is rebalanced monthly and reconstituted quarterly. The Dow Jones U.S. Select REIT IndexSM is calculated and distributed by Dow Jones Indexes pursuant to an agreement with Dow Jones & Company, Inc. Dow Jones is the service mark of Dow Jones & Company.

The Bloomberg Roll Select Commodity IndexSM

The Bloomberg Roll Select Commodity Index is a broad based commodity index. It is comprised of 20 commodity futures contracts spread across five main commodity groups: Agriculture, Energy, Livestock, Industrial Metals and Precious Metals. The index aims to mitigate the effects of contango on index performance. For each commodity, the index rolls into the futures contract showing the most backwardation or least contango, selecting from those contracts with nine months or fewer until expiration.

S&P Global LargeMidCap Commodity and Resources Index

S&P Global LargeMidCap Commodity and Resources Index is comprised of S&P Global LargeMidCap constituents that are related to three natural resources buckets: Energy, Materials and Agriculture. Each natural resources bucket is weighted approximately 33.33% providing a more balanced index. Standard & Poor's (S&P) Global LargeMidCap Commodity and Resources Index is a trademark of Standard & Poor's Financial Services LLC and has been licensed for use by State Street Bank and Trust. The Products are not sponsored, endorsed, sold or promoted by Standard & Poor's and Standard & Poor's makes no representation regarding the advisability of investing in the Products.

S&P Global Infrastructure Index

The S&P Global Infrastructure Index is designed to track 75 companies from around the world chosen to represent the listed infrastructure industry while maintaining liquidity and tradability. S&P Global Infrastructure Index is a registered trademark of Standard & Poor's Financial Services LLC and has been licensed for use by State Street Bank and Trust. The Product is not sponsored, endorsed, sold or promoted by Standard & Poor's and Standard & Poor's makes no representation regarding the advisability of investing in the Product.

The Bloomberg Barclays US Government Inflation-Linked 1-10 Year Bond Index

The Bloomberg Barclays US Government Inflation-Linked 1-10 Year Bond Index is designed to measure the performance of the inflation protected public obligations of the U.S. Treasury commonly known as "TIPS" that have a remaining maturity greater than or equal to 1 year and less than 10 years. TIPS are securities issued by the U.S. Treasury that are designed to provide inflation protection to investors. The Fund is a collective investment trust and is not FDIC insured, nor is it an obligation or deposit of, or guaranteed by State Street Corporation, SSGA or its affiliates.

This fact sheet provides summary information about the Fund. It should be read in conjunction with the Fund's applicable Strategy Disclosure Document, which is available upon request. Target Weights

Certain supplemental information may be rounded and may result in the total not adding up to 100.

Characteristics and allocations, if shown, are subject to change and should not be relied upon as current thereafter. This information should not be considered a recommendation to invest in a particular sector or to buy or sell any security shown. It is not known whether the sectors or securities shown will be profitable in the future.

The portfolio turnover rate is as-of the prior fiscal year-end ("FYE"). It is calculated consistent with Form N-1A by dividing the lesser amounts of purchases or sales of portfolio securities (i.e., underlying Fund shares) for the fiscal year by the monthly average value of the portfolio securities owned by the Fund during the fiscal year.

Important Message About Risk

This section explains some of the general risks involved with investing in the Fund, including possible loss of principal. Generally, among asset classes, stocks are more volatile than bonds or short-term instruments. Stock values fluctuate in response to the activities of individual companies and general market and economic conditions and at times the risk level of the Fund may be greater than that of the U.S. stock market in general. In addition, the Fund may use derivative instruments which may involve additional risks such as potential illiquidity of the markets, credit risk, currency risk, leverage risk and counterparty risk.

This section does not purport to be a complete explanation; rather, an investment in the Fund is subject to a number of other risks, which are described in more detail in the Fund's Strategy Disclosure Document. Carefully review the complete description of the risks prior to investing in the Fund.

Further, there can be no guarantee that the Investment Objective of the Fund will be met. Risk management does not promise any level of performance or guarantee against loss of principal. SSGA encourages investors to seek the advice of well-qualified financial and tax advisors, accountants, attorneys and other professionals before making any investment or retirement decision.

Risk Management

SSGA monitors the Fund's portfolio on an ongoing basis to minimize variances from its benchmark exposures, and initiates trades as part of the Fund's rebalancing process or to accommodate periodic cash flows.

About SSGA

The Fund is managed by State Street Global Advisors Trust Company, a wholly owned subsidiary of State Street Bank and Trust Company, and a global leader in providing investment management solutions to clients worldwide. To learn more about SSGA, visit our web site at ssga.com.

Fee Disclosure

The Fund seeks to achieve its investment objective by making direct investments in securities or by making investments in other investment funds, including those managed by SSGA and its affiliates ("SSGA Funds"). The Fund indirectly bears a proportional share of the fees and expenses of the SSGA Funds in which the Fund invests ("Indirect Expenses"), which may include, among others, Fund's administration, investment management, audit, index and legal fees of the SSGA Funds. Additionally, the Fund incurs direct fees and expenses ("Direct Expenses"), which may include, among others, the Fund's administration, investment management, audit, index, service and legal fees. For Class C, the investment management fee is included in the Direct Expenses. The Indirect Expenses combined with the Direct Expenses form the Total Annual Operating Expense Ratio ("TAOER"). The TAOER of Class C will equal .22% annually. You should contact your Plan Administrator for a complete description of the fees and expenses applicable with Class C units of the Fund, including the shareholder servicing fees.

Transaction costs (including, for example, brokerage costs, and taxes, if any) are not reflected in the TAOER but are reflected in the net performance returns of the Class C units of the Fund. In the ordinary course, the investment manager does not assess Transaction Charges in connection with the purchase or redemption of units of the Fund. To the extent the Fund invests in one or more SSGA Funds, the Fund itself may incur such Transaction Charges as a result of such investment, which will be reflected in the Fund's net asset value.

The following example is intended to help illustrate the impact of fees and expenses associated with an investment in Class C units of the Fund based on its TAOER. It is intended to illustrate the hypothetical cumulative expense that you would incur over various time periods if you were to invest \$10,000 in Class C units of the Fund. This example assumes that the Fund provides a return of 5% a year and that operating expenses of the Fund remain the same. The results apply whether or not you redeem your investment at the end of the given time period.

Example Fees: 1 year - \$22.53; 3 years - \$70.86; 5 years - \$123.92; 10 years - \$280.43

The example outlined above does not represent the actual fees and expenses of the Fund. Actual fees and expenses may be higher or lower than those shown.

Fees and expenses are only one of several factors that participants and beneficiaries should consider when making investment decisions.
