DESCRIPTION/OBJECTIVE

The investment seeks to match the performance of the Morgan Stanley Capital International Europe, Australasia, Far East Index (MSCI EAFE). The fund generally is fully invested in stocks included in the MSCI EAFE Index and in futures whose performance is tied to certain countries included in the index. It generally invests in all stocks included in the index. The fund's investments are selected to match the benchmark composition along individual name, country and industry weighting, and other benchmark characteristics. It maintains approximately the same weighting for each stock as the index does. The fund is non-diversified. There is no assurance the objectives will be met.

Investing in foreign securities presents certain unique risks not associated with domestic investments, such as currency fluctuation and political and economic changes. This may result in greater share price volatility.
