DESCRIPTION/OBJECTIVE

The investment seeks to provide a high level of current income; the fund's secondary objectives are to seek growth of income and capital. The fund currently invests primarily in high yield, high risk corporate bonds (commonly referred to as "junk bonds") which are rated lower than investment grade (i.e., bonds rated lower than Baa by Moody's Investors Service, Inc. ("Moody's") or lower than BBB by Standard & Poor's Ratings Services ("S&P")) or are unrated and of comparable quality as determined by the investment adviser.

There is no assurance the objectives will be met.

Fixed income investment (bond) funds are subject to interest rate risk; their value will decline as interest rates rise. Fund shares are not guaranteed by the U.S. Government. High yield "junk" bonds involve a greater risk of default of payment of principal and interest than higher-rated bonds. Also, these bonds tend to be less liquid than higher-rated securities. Therefore, an investment in the Fund may not be appropriate for short-term investing.
