DESCRIPTION/OBJECTIVE

The investment seeks long-term growth of capital. The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in equity securities issued by small-cap U.S. growth companies. While most assets will typically be invested in U.S. equity securities, the fund may invest up to 10% of its net assets in foreign stocks, including securities of emerging market issuers.

There is no assurance the objectives will be met.

Small and mid sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.
