**DESCRIPTION/OBJECTIVE**

The investment seeks a favorable long-term total return, mainly through capital appreciation, primarily from equity securities of medium-sized domestic companies. Under normal circumstances, the fund invests at least 80% of its assets in mid-cap equity securities. The fund will invest primarily in equity securities of medium-sized domestic companies, as defined by the fund's benchmark index (the Russell Midcap® Value Index) that the fund's investment adviser believes appear undervalued by the market based on an evaluation of their potential worth.

There is no assurance the objectives will be met.

*Small and mid sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.*
