DESCRIPTION/OBJECTIVE
The investment seeks to provide capital appreciation and current income consistent with its current asset allocation. The fund invests in other Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2020 (the target year). The fund’s asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

There is no assurance the objectives will be met.

The target date is the approximate date when investors plan to start withdrawing their money. The asset allocation of the target date funds will become more conservative as the target date approaches by lessening your equity exposure and increasing your exposure in fixed income type investments. The stated asset allocation may be subject to change. The principal value of an investment in a target date fund is not guaranteed at any time, including the target date, and there is no guarantee that the funds will provide adequate retirement income. A target date fund should not be selected based solely on age or retirement date. It is possible to lose money by investing in securities, including losses near and following retirement.

HOLDINGS AND SECTOR ALLOCATIONS
The Target Retirement 2020 Fund (VTWNX) is a target date fund that invests in other Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2020 (the target year). The fund’s asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

There is no assurance the objectives will be met.

The target date is the approximate date when investors plan to start withdrawing their money. The asset allocation of the target date funds will become more conservative as the target date approaches by lessening your equity exposure and increasing your exposure in fixed income type investments. The stated asset allocation may be subject to change. The principal value of an investment in a target date fund is not guaranteed at any time, including the target date, and there is no guarantee that the funds will provide adequate retirement income. A target date fund should not be selected based solely on age or retirement date. It is possible to lose money by investing in securities, including losses near and following retirement.

Performance:
The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 1-877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions.

Market Timing:
Frequent exchanging of investment options may harm long-term investors. Your plan and/or the fund have policies to detect and deter exchanges that may be abusive. Those policies may require us to modify or suspend purchase or exchange privileges.

Prospectus:
Investors should consider the fund’s investment objectives, risks, charges and expenses before investing. The prospectus, and if available the summary prospectus, contain complete information about the investment options available through your plan. Please call 1-877-778-2100 for a free prospectus and if available, a summary prospectus that contain this and other information about the mutual funds. You should read the prospectus and the summary prospectus, if available, carefully before investing. It is possible to lose money when investing in securities.

Benchmark indices are unmanaged and cannot be invested in directly. See User Guide for index definitions.
