**DESCRIPTION/OBJECTIVE**

The investment seeks long-term capital appreciation. The fund invests at least 80% of its total assets in equity securities of small-capitalization companies, which the managers define as securities of companies with market capitalization within the range of the Russell 2000® Index; and up to 25% of its total assets in equity securities of foreign issuers through ADRs and similar investments.

There is no assurance the objectives will be met.

*Small and mid sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.*
